REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

An apparatus for baking an article including a mold having mold portions wherein each mold portion having a baking surface, the mold portions fitting together such that the baking surfaces define a mold cavity, a least one mold portion having a cavity and having associated therewith a mold stripper, the mold stripper including a press plate having a baking surface, the press plate being sized and dimensioned to fit within the mold portion cavity such that the press plate baking surface is flush and contiguous with the associated mold portion baking surface, the mold portions and the mold stripper being independently movable, whereby the mold portions and mold stripper can be moved together to define a mold cavity in which an article can be baked, and whereby after baking the mold portions can be moved away from the baked article while the baking surface of the mold stripper press plate remains in contact with the baked article to facilitate separation of the associated mold portion baking surface from the baked article is not taught nor fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
